

# UFAW Animal Welfare Student Scholarships

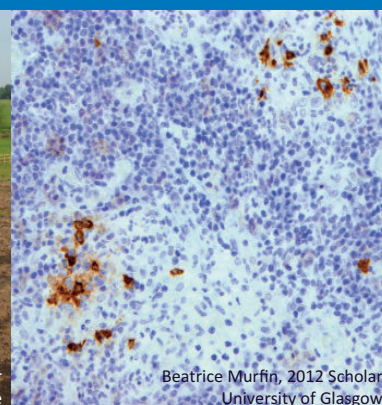

## Applications invited for the UFAW Animal Welfare Student Scholarships 2014

UFAW is now inviting students to apply for the 2014 UFAW Animal Welfare Student Scholarships. The aim of this scheme is to enable students to pursue their interests in animal welfare and to provide them with the opportunity to conduct relevant research or other (e.g. educational) projects. Students will usually be undertaking courses in the agricultural, biological, psychological, veterinary or zoological sciences. However, we would also welcome applications from students from other disciplines interested in carrying out a project in animal welfare.

Projects may be carried out within the UK or overseas and must be relevant to improving the welfare of farm, laboratory, companion, zoo, or free-living wild animals whose welfare is compromised by human factors. UFAW is currently interested in breed-related genetic problems in companion animals and how an animals' quality of life may be affected by these: <http://www.ufaw.org.uk/geneticwelfareproblems.php>. UFAW would therefore also be pleased to receive project proposals that may contribute to a greater understanding of this area.

Application forms and further information are available from the 'Grants & Awards' page of the UFAW website: [www.ufaw.org.uk](http://www.ufaw.org.uk) or email: [scioff@ufaw.org.uk](mailto:scioff@ufaw.org.uk). Successful applicants will be awarded up to **£1600** to cover subsistence and project expenses.

Please note that the closing date for applications is: **28th February 2014.**
