Introduction to the Directory

This West African Aquaculture Commercial Suppliers and Services Trade Directory is part of a three publication series produced by SARNISSA which also includes similar Directories for Southern and East Africa. These are all outputs from the EC funded FP7 SARNISSA project and are available for download to all SARNISSA registered members at www.sarnissa.org - go to Publications page.

We would wish to clearly indicate the following to all readers and also companies, organisations and individuals listed in the directories:

- 1. SARNISSA, the EC or the authors concerned are not recommending or endorsing any of the companies, products or services listed in the directories, these directories are compiled and provided solely as sources of information.*
- 2. However if we (SARNISSA) are informed of any bad practices or poor customer service from any of the companies or organisations within the directory we reserve the right to remove their details.*
- 3. If you wish to recommend any other companies or organisations to be included within the Directories, either your own or other, please send this request in writing with details and justification to Gabriel Koko gabkoko1@fishforafrica.org or Will Leschen wl2@stir.ac.uk .*
- 4. The Directories will be reviewed and where necessary updated on a monthly basis.*
- 5. For the first year (From June 2011 – May 31st 2012) there will be no charge for any company or organisation having their details included within the directories, however SARNISSA reserves the right to charge companies and organisations for inclusion in the Directories from 1st June 2012.*
- 6. We welcome any feedback concerning these directories – please send to William Leschen wl2@stir.ac.uk or the postal address above.*

We hope you find these publications useful and helpful in developing your own aquaculture activities or related businesses. The author would also wish to acknowledge the contribution and original concept of Karen Veverica, Nelly Isyagi and USAID, in the compilation of this directory.

The SARNISSA Team May 2011

As of June 2011 SARNISSA now has over 1900 registered members from all across Africa and internationally benefitting from the various different services and information, examples of which include these Trade Directories. For aquaculture to develop further in Africa a strong, reliable, affordable and accessible commercial input and services supply sector will have to develop providing individuals and companies the type of equipment and services they need to successfully grow more fish and other aquatic products.
