

Does your work or study involve the area of aquatic health/fish or shrimp diseases in African aquaculture?

Then please take a few minutes to fill in our survey

Aquatic Health Fish/Shrimp Diseases Online Survey for African Aquaculture June 2022

This questionnaire is part of **FAO's** activities to better understand & support the management of aquatic health across Africa.

Delivered through [ThinkAqua](#).

Aim: Collect up to date information from across Africa where aquaculture is now beginning to intensify/develop commercially. Individuals from all countries welcome to fill this in.

All information will be anonymised, to produce a user-friendly-format summary resource for all those working/studying across the sector.

Prize draw: 2 X National Geographic small field microscopes with smart phone adapter for all who complete survey.

Please click on stakeholder group you work/study in to start survey:
